PROFESSIONAL SUMMARY

Data Analyst and Computer Science undergraduate with hands-on experience in SQL, Python, Statistics, Data Visualization, Machine Learning, and Business Intelligence. Skilled in collecting, cleaning, validating, transforming, and analyzing structured and unstructured data to generate actionable business insights. Proficient in SQL, Power BI, Tableau, Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn. Strong analytical, problem-solving, and reporting skills with experience building dashboards, performing exploratory data analysis (EDA), and developing predictive models.

EDUCATION

Guru Nanak Dev University, Amritsar 2022 – 2026 Bachelor of Technology (Computer Science and Engineering)

TECHNICAL SKILLS

Languages: Python, SQL **Data Analytics:** Data Cleaning, Data Validation, EDA, Statistical Analysis, Data Wrangling, Reporting **SQL:** Joins, Subqueries, CTEs, Window Functions, Aggregations, Query Optimization **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn **Visualization:** Power BI, Tableau, Excel Dashboards **Statistics:** Regression Analysis, Hypothesis Testing, ANOVA, Clustering, Forecasting **Tools:** Git, GitHub, AWS EC2, FastAPI, REST APIs

EXPERIENCE

Maruti Suzuki India Limited – Intern

Jul 2024

- Worked on a Perpetual Inventory System to improve inventory tracking and stock accuracy.
- Analyzed inventory and warehouse data to identify operational inefficiencies.
- Supported reporting and data-driven decision-making for supply chain operations.
- Strengthened analytical and problem-solving skills through real-world business datasets.

PROJECTS

Road Accident Analysis Dashboard — SQL, Power BI, Tableau

- Cleaned, transformed, and analyzed accident datasets using SQL.
- Built interactive dashboards to identify accident hotspots, trends, and key risk factors.
- Created KPI reports and visualizations to support road safety decision-making.

Book Recommendation System — Python, Pandas, NumPy, Scikit-learn

- Performed data preprocessing, feature engineering, and exploratory data analysis.
- Developed a recommendation engine using similarity-based machine learning algorithms.
- Deployed the application on AWS EC2 using Streamlit.

Medical AI Professional Assistant — Python, FastAPI

- Developed a document-based retrieval system for accurate information extraction.
- Automated document processing, embedding generation, and retrieval workflows.
- Improved response relevance through structured data retrieval techniques.

ACHIEVEMENTS LEADERSHIP

- Winner of Rangla Punjab Marathon.
- Assisted placement drives and mock interview sessions for Accenture recruitment activities.
- Built multiple end-to-end Data Analytics, Machine Learning, and Dashboarding projects.
